AVAC 26

VACUUM

- 3 x 1000 WATT independently run motors
- 100 Litre Canister
- 255 CFM

1 year WARRANTY

AVAC 26 3 X 1000 WATT DUAL STAGE MOTORS 100 LITRE CANISTER

Designed specifically for professional wood floor sanding contractors, the AVAC 26 dust containment system is the perfect mix of power and performance. Its compact design makes it highly portable, and yet it still boasts a large 100 Litre capacity tank with superior filtration capabilities. Its high suction, high filtration, and ease of transport make it the vacuum of choice in the wood floor sanding market.

FEATURES	BENEFITS
1 CLEAR POLYCARBONATE LID	Easy to monitor tank capacity
2 3 x 1000W MOTORS	Powerful enough to provide constant suction under heavy load whilst still be able to turn motors on/off independently of each other
3 LARGE 100 LITRE METAL CANISTER	Made to withstand the rigors of industrial use as well as being large enough to handle jobsite requirements.
4 DUAL 50MM INTAKE PORTS	Allows for dust extraction for two machines simultaneously
5 15M DETACHABLE POWER CORD	Easy replacement and interchangeability.
6 GREY NON MARKING WHEELS	Allows easy transport without marking floor area
7 CONVENIENT HANDLES	For easy lifting and transportation
8 REUSABLE DUST COLLECTION BAG	Multi-use dust collection bag acts as a secondary filter, allowing for the overall compact design of the vacuum. Replacement bags/filters are economical to replace and are sold in sets of three.
9 HEPA FILTER	Optional HEPA exhaust filter is available for use when desired or required by regulations.
10 255 CFM	Provides for easy suction and material clearance under heavy load
11 1.8 METER WATER LIFT	Measuring standard - to illustrate the dust control unit is able to remove heavy duty dust particles. You can hook up a belt sander and edger at the same time while maintaining powerful dust control.

WHATS INCLUDED:

- 2 x 15 meter hoses
