EP Satin

HIGH SOLIDS · MOISTURE CURING

COATING SYSTEM — 1st COAT SEALER / GLOSS / 2nd COAT GLOSS 3rd COAT SATIN

BRUSH OR 6MM MOHAIR ROLLER · 7 DAYS FULL CURE

EUROPOL® EP SATIN is an attractive and extremely durable clear moisture curing polyurethane.
Formulated to provide a high performance protective finish coat for interior solid timber, engineered, flooring, parquetry, and cork tiles.

FEATURES

· Advanced Technology Xylene free, low-isocyanate formulation
· Excellent application and flow properties
· Fast curing - lower odour
· Superior wear performance on internal timber floors and timber surfaces.

PREPARATION

1). Sand the timber flooring surface to a scratch free 120-150 grit finish grade.
2). Vacuum thoroughly to remove all sanding dust, loose filler and other foreign matter.
The floor should be thoroughly clean, dry and free from wax, oil, grease and other contaminants prior to the commencement of coating. If the surface was previously coated ensure that all old coating is removed.

APPLICATION

Shake can before use. Decant only the required amount of coating for immediate use into Europol bucket.
Re-seal the original container to prevent moisture exposure.
Do not return exposed product to the container.
Apply with good quality 6mm mohair roller, cutting in edges with a suitable brush.
Minimise exposure to direct sunlight, uneven airflow and drafts under doors and staircases.
Consider masking the bottom half of floor to ceiling windows if likely to be exposed to direct sunlight during application.

DRYING TIME:
Re-Coat: 12 hrs
Walkable: 24 hrs
Full Cure: 7 days

COVERAGE:
Sealer Coat: 8-10 m² per litre
Subsequent Top coats: 8-12 m² per litre
Cork & Particle board – 5-7 m² per litre

THINNING:
No thinning required

CLEAN-UP:

Use Europol Universal Cleaner before product cures.

FIRST AID MEASURES

INGESTION:
If swallowed, do NOT induce vomiting. Immediately rinse mouth with water and give water to drink.
INHALATION:
Remove victim from area of exposure Remove contaminated clothing and loosen remaining clothing.
SKIN CONTACT:
If skin or hair contact occurs, immediately remove contaminated clothing and clean skin and hair with plenty of soap and water. If irritation occurs seek medical advice.
EYE CONTACT:
If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.
